Directions and Parking

Methodist Rehabilitation Center (MRC) is located on the University of Miss. Medical Center Campus. It is next to the Blair E. Batson Children's Hospital.

To get to MRC from Millsaps: Exit the campus onto North State Street and go North (left) to the traffic light at Woodrow Wilson. Go right like you are headed to I-55. Immediately get into the left lane. At the first turn, take the left onto Peachtree Street.

You will see MRC on the left up the hill.

If you have any Special Needs students they may be let out at the main entrance. Handicapped parking is available in the pay lot across in front of MRC, and I will have our front desk validate the parking ticket.

For others, bypass the road up to the building and turn into the next right. This is a controlled access parking lot. The parking lot is card access or code access. To gain access to the lot, you will enter a four digit code followed by the pound sign, **3957# and the gate will rise. You may park in any spot that does not have a sign that designates that space as reserved. If there are any glitches, call me on cell 601-940-0667.**

After parking, cross over Peachtree at the crosswalk where you entered the parking lot, go up the steps leading to the MRC Entrance. In the 1st floor lobby there are four elevators. Take an elevator to the sixth floor. Upon exit, look left and right for the sign with arrows...follow the arrows to Occupational/Physical Therapy. The new Assistive Technology Lab is next to the therapy gym.
